

Jamaica's Net Remittance Inflows Increased in September 2020

The Bank of Jamaica's (BOJ) Remittances Bulletin for September shows net remittances inflows increasing by 38.4% or US\$66.3 million to US\$239.2 million compared to the US\$172.9 million recorded in September 2019. This improvement is mainly reflective of an increase in gross remittance inflows largely driven by a rise in remittance companies and other remittances. The United States of America (USA) remained Jamaica's largest source of remittances in September 2020 followed by Canada, United Kingdom (UK), and the Cayman Islands, with ratios of 67.4%, 12.0%, 10.6% and 6.3%, respectively. For the April to September period, net remittance inflows increased by 30% or US\$325.9 million to US\$1,412.3 million relative to the corresponding period in 2019.

Despite the economic crisis induced by COVID-19, Jamaica's remittance inflows have remained resilient thus far. However, with the resurgence in COVID-19 cases accompanied by recent lockdowns in many major migrant-hosting countries such as the UK, Canada and US, significant downside risks to remittance inflows remain. Additionally, the uncertainty of the second fiscal plan for the US, as well as, extended federal jobless benefits which are set to expire at the end of the year are likely to continue to weigh on the pace of recovery, consumers ability to spend, depress business activity and support the view for subdued remittances over the coming months. However, the recent positive news about the successful vaccine trials and the possibility of a vaccine becoming available soon could prove to be a significant upside risk to the global recovery of jobs and Jamaica's remittance inflows.

	YTD %	-25.92%				
BUY					JMMBGL is one of Jamaica's largest financial services corporations, entering the market in 1992 as the first Money Market Brokerage firm. The holding company, JMMB Group Limited, was formed as a parent to house the group of companies. To date, the JMMB Group Ltd. has extended its reach across the Caribbean, including the Dominican Republic and Trinidad and Tobago. The Group has over 316,000 clients and continues to grow steadily. We believe that in addition to its core businesses, key strategic partnerships such as the 22.2% stake in Sagico Financial Corporation allows JMMBGL to achieve further diversification and increased profitability.	
Seprod Ltd (SEP)	Current Price	\$64.84	EPS	\$4.26	 ROE 18.90%	ROE 15.11%

	WoW %	3.71%	Div. Yield %	1.54%		
	YTD %	27.19%				
BUY					With the onset of COVID-19, restaurants, supermarkets, bakeries and corner shops in communities have been forced to operate within restricted parameters or have completely shuttered. Although the COVID-19 pandemic has had a negative impact on Seprod's operations, the Group's diversified portfolio has proven to be resilient thus far. Looking ahead, there are still risks that could negatively impact global supply chains and ultimately affect raw material prices, consumer income and economic growth. Notwithstanding, given our estimate that the worst part of the covid-19 restrictions may be behind us, we are expecting that the companies good performance could likely continue into at least the short term. Over the last five years, the group has invested significantly in strengthening its operations and its resiliency. The investments include consolidating aspects of its business where costs were being duplicated, which is a move to position itself for continued resilience and competitiveness in face of the uncertainty which lies ahead. Over the medium-term, the group has further investments plans to improve its distribution, warehousing and logistics efforts that are expected to augment the Groups' profitability over time.	
Wigton Windfarm Ltd(WIG)	Current Price	\$0.73	EPS	\$0.05	 ROE 14.85%	ROE 5.99%
	52 Week High	\$1.15	BVPS	\$0.35	 P/E 13.94	P/E 20.98
	53 Week Low	\$0.50	T12M Div.	\$0.00	 P/B 2.07	P/B 1.15
	WoW %	-1.02%	Div. Yield %	0.00%		
	YTD %	-24.86%				
HOLD					We believe that Wigton Windfarm provides an advantage for investors in three main ways. The first is diversification, as it is an alternative energy investment which becomes more crucial in the midst of global warming. The second is an increase in medium to long term value driven by profitability. The third is liquidity as the availability of shares is wide and allows a tidy entry into or exit out of the investment. Wigton Windfarm has potential competition from MPC Caribbean and New Fortress Energy but they together form an ecosystem which is needed to move the Caribbean away from its reliance on Fossil Fuels, the 2nd most expensive item on Jamaica's import bill.

	WoW %	4.11%	Div. Yield %	2.04%	P/B 2.02	
	YTD %	-31.56%			P/B 3.29	
BUY					<p>Having been in operation for over sixty years, JBG has grown into an iconic brand in Jamaica and now has an increasing presence in the region. The Company's Jamaican operations continue to have a significant impact in the local marketplace through its Best Dressed Chicken and Hi-Pro divisions. However, the local market is mature with growth expected to be low in the medium term. With operations already firmly set in Haiti, JBG moved further to cement a stronghold and presence along the supply chain in the US with its recent acquisitions. In our view, these acquisitions and other inorganic initiatives are expected to be the catalyst for JBG's growth going forward.</p>	
Wisynco Ltd (WISYNCO)	Current Price	\$15.98	EPS	\$0.65	ROE 17.51%	 ROE 15.11%  P/E 26.28  P/B 3.29

	WoW %	3.42%	Div. Yield %	1.19%	P/B 4.32	
	YTD %	-31.42%			P/B 3.29	
HOLD					<p>Wisynco's customers typically include restaurants, supermarkets retail and whole-sale outlets, schools and other food service outlets. As a result of the social distancing orders being enforced by the Government to curb the spread of the virus, the operations of the Company's customers base have been severely disrupted. We acknowledged, however, that the Company's strong brand presence in the food manufacturing and distribution sector, strong balance sheet and distribution network will go a far way to ensure that Wisynco remain resilient over the long-term. We believe that the Management's experience in distribution and the Company's investment in Innovation will be huge drivers of equity return over time. Notwithstanding, over the short to medium term (up to three years) Wisynco's profitability will be challenged as over 95% of the Company's revenues are generated locally and local consumer demand has declined and likely to remain subdued over the short to medium term. In our scenario, the Company is projected to return to pre-COVID state in the FY 2024/FY 2025.</p>	
Jamaica Producers Group (JP)	Current Price	\$20.04	EPS	\$3.41	ROE 23.55%	 ROE 11.78%  P/E 16.57  P/B 1.53
	52 Week High	\$28.50	BVPS	\$14.47	P/E 5.88	
	53 Week Low	\$15.00	T12M Div.	\$0.15	P/E 16.57	
	WoW %	0.35%	Div. Yield %	0.75%	P/B 1.38	
	YTD %	-26.47%			P/B 1.53	
BUY					<p>Undoubtedly, COVID-19 has had a negative impact on aspects of the business and is likely to continue to weigh on those segments for the remainder of this year, even as the company adjusts its operations to deal with the pandemic. Some segments have remained strong; however, the pandemic has created opportunities for new retail channels to offset the downturn seen in some segments. Importantly, JP is further seeking to strengthen its business over the medium term to improve its capacity, to drive long term growth at the same time it continues to invest in strong food and logistics businesses. Despite COVID-19, JP remains strong with several key financial metrics, including its large and growing cash and securities balance, providing the group with the flexibility to manage and execute on strategies of acquiring undervalued assets.</p>
